

R Programming Assignment

- 1) Write a R program to add two vectors of integers type and length 3.
- 2) Write a R program to append value to a given empty vector.
- 3) Write a R program to multiply two vectors of integers type and length 3
- 4) Write a R program to find Sum, Mean and Product of a Vector.
- 5) Write a R program to find the minimum and the maximum of a Vector.
- 6) Write a R program to sort a Vector in ascending and descending order
- 7) Write a R program to merge two given lists into one list
- 8) Write a R program to count number of objects in a given list
- 9) Write a R program to find the sum of two matrices
- 10) Write a R program to find the product of two matrices
